11. Discuss safety concerns you should consider when geocaching. View the attributes of a nearbocache to identify caching hazards identified by cache owners.
12. Compare geocaching coordinates and hints with God's guidance in Scripture (Psalm 119:105). Explain how following God's directions can keep a person spiritually "on course," just as accurate coordinates do in geocaching.
13. Do one of the following:
 - a. After finding a geocache, write a thoughtful log entry that demonstrates honesty, gratitude, and respect for others. Then explain to your instructor or a group how your actions while geocaching (CITO, following rules, respecting property, kindness to others) can serve as a quiet Christian witness, even when no one knows who you are.
 - b. Read and discuss Bible passages Matthew 6:19–21 and Jeremiah 29:13. Explain how geocaching illustrates the difference between searching for temporary things and seeking what has lasting value. Share one practical way you can seek God intentionally in everyday life, not just when it is convenient.
